INVESTOR IN PEOPLE

Industrial Robot provides up-to-date coverage of international activities that relate to the design and application of industrial and service robot systems. Coverage is essentially of a practical nature and designed to be of benefit to those working in the field. Proven applications are covered together with company news and new product information. *Industrial Robot* now also includes research articles that reflect the most interesting and strategically important research and development activities from around the world. A double-blind review process ensures the validity and relevance of all academic articles.
